

SMART 8 - OUTDOOR EDUCATION

As part of the Smart 8 program, the Outdoor Education group went to Caribbean Rollerama. For the majority of the group, it was their first time roller skating.

After a number of spills, almost everyone was able to skate around the rink on their own.

It was also great to see Mr Catalano out having a go with the students.

We all had a fantastic time and look forward to the many other fun activities we have planned for the rest of the year
