Dear Members of the Glen Waverley Primary School Community,

Welcome to another very exciting and information packed newsletter! As usual so many marvellous things have occurred at our wonderful school over the past fortnight such as:

**Education Week – “Scientists Do Amazing Things”**
Wow what an amazing Education Week we had at our school last week!

On Monday we commenced the week with a special assembly where some of the children showcased their wonderful musical talents. A sincere thank you and well done to the Recorder Band for sharing a song with us, 4SD for playing their recorders and 56L for playing the Federation Bells.
On Tuesday the school choirs performed at The Glen Shopping Centre in front of approximately 100 people which was just fantastic and a real thrill for the children and their families! Well done and thank you to Ms Bures, Ms Wang and the children in the Choir and Chinese choir for their wonderful performances.

Wednesday was an amazing day for everyone as the Year 3 – 6 students participated in our annual Cross Country event at Larpent Reserve (in preparation for this Friday’s District Cross Country championships), the Year Prep to Two children were provided with the opportunity to complete an array of fitness and sport challenges on the oval and then the entire school had a joint BBQ. The afternoon was then spent preparing for Thursday’s Glen Waverley Primary School Giant Science Fair! Thank you and well done to Mr Warren for organising the Year 3 – 6 Cross Country and Mr Lewis the Year Prep to 2 sports carnival as they were both an enormous success and thoroughly enjoyed by all!
Thursday was another very exciting and truly inspirational day for all of us. We commenced with an Open Morning where approximately 200 parents filled our hall as we explained how the morning will proceed and why we have a strong focus on Science at our school. From 9:20 to approximately 10:00 parents and family members visited the Year Prep and One classrooms where the children showcased some of the really interesting Science experiments they have been completing and, more importantly, were able to articulate what they learnt from the experiments! I was so thrilled with the high level of knowledge demonstrated by the children as they clearly had a very deep understanding of the various scientific experiments they have been completing.

From 10:00 to approximately 11:00, the adults then visited the Year 2 to 6 classrooms where the children presented their Science projects which they have been an integral component of our Home Learning program since the beginning of this term. And wow, we had so many extremely impressed adults as the children’s Science projects were simply amazing!
From 11:00 to approximately 11:30 the staff organised a wonderful morning tea for our parents just to say, “thank you” for supporting our school and the children with their learning! This too was an enormous success as so many parents, staff members and the Junior School Council enjoying a beautiful morning tea together!

Over the next two hours our school was divided into two teams. Team A remained in their classrooms and presented to Team B who had the opportunity to walk throughout the school and view (actually their task was to ask lots of questions) about the projects. Over the next hour, Team B presented whilst Team A visited classrooms. This was a very successful and important part of the day as the children had the opportunity to not only demonstrate their projects but also, articulate the learning and scientific principles which apply to them.

In the evening, we held our annual Open Night where parents were encouraged to visit all of the classrooms and see the fantastic science projects and also view the experiments our junior students were completing.

This year’s Education Week theme was “Scientists Do Amazing Things” and we certainly had so many wonderful scientists in our school that DID so many amazing things! It was absolutely wonderful to see the vast array of scientific projects produced as they were all of a very high calibre. It was also obvious that the children thoroughly enjoyed the challenge of creating these projects and thrived in the opportunity to present them and the corresponding learning which went parallel with creating the projects.

Just like the students, a large number of adults also completing amazing things last week! A sincere thank you to the numerous parents who assisted with the whole school BBQ. Cooking enough sausages and vegetable burgers for 600+ children, 50 staff and approx. 100 parents is an enormous task in itself and something which the staff, children and I really appreciate!

At our school we are so fortunate to have an amazing staff who continually go well beyond what is expected for the betterment of our school community. During Education Week we have staff members order and pick up food, organise the BBQ, gas bottles, sporting events, choir performances, a special morning tea for parents, open their classrooms in the morning and evening etc etc etc. When you consider that all of this was completed during the period of time when we are writing reports it really demonstrates the quality of the staff at our school.

On behalf of the school community, a sincere thank you to all of the staff at our wonderful school for the amazing effort they also put in during Education Week.

I would like to complete this section of the newsletter by including an email from one of our parents:

Dear Mr Catalano,

Good afternoon!

It was very inspiring to see young students tackle and enjoy tough concepts via some very exciting (and sometimes messy!) experiments. Their excitement was palpable and infectious and took most of us parents back to our student days. This is a great way to show students that science is fun, and it is wonderful for parents to see students enjoy their schoolwork with such whole heartedness.

Hopefully this would become a permanent fixture in the GWPS annual events calendar.

Kudos to the GWPS team for putting together this amazing science day.

Thank you
Cheers!

Shivani
Arjun’s Mum 1MB

Thank you Shivani for the lovely sentiments and message.
Srihari in 5PA has posted his amazing science project on Youtube. To access it click on the following link:

https://www.youtube.com/watch?v=LvuI8abmMG0

I have sent the link to some Principal colleagues and all of them have commented on how clever and amazing it is. Thank you Mohan (Hari’s father) for sending the link to me and I hope everyone enjoys it as much as I did!

Thank you everyone for making sure Education Week was an enormous success at our school and we look forward to next year’s!

**Book Fair**

I hope everyone enjoyed this year’s Book Fair and thank you very much for making the time to visit it. We sold approximately $2,000 worth of books which has enabled us to purchase books totally $650 for our school library.

Every year we endeavour for it to coincide with Education Week and this year was no different except for the inclusion of a very special visitor who happened to make an appearance at last Monday’s assembly – much to the delight of the children! Clifford the dog spent a few days at our school in order to have his photo taken with over 200 children so we can raise money for the Deaf Foundation. Thank you to all of the families who supported this wonderful initiative, Joseph, Paige (our wonderful Library Captains) and their band of assistants, Kay our wonderful librarian for overseeing it and Ms Walsh (our budding staff photographer) for taking the photographs. We look forward to the photographs arriving very, very shortly!

**Thank you to the Gore Family**

Once again, we are extremely fortunate to have so many families who support our school in so many ways. Recently the Gore family donated a mini HiFi system which will get used extensively throughout our school. Thank you very much Neil, Manasi, Anika, Anushka and Dhruv for your very kind donation – we really appreciate you thinking of our school and for supporting us!

**Congratulations Appu**

At our school we are always look forward to hearing about the achievements of the children outside of school and then sharing this with the entire school community. Appu (Year Prep) is learning Indian Classical (Carnatic) Music from the MS.Jayshree Ramachandran (SaptaSwara School of Carnatic Music in, Glen Waverley). He joined the beginner's class in November 2013 and they held their annual concert on the 18th May at the Kel Watson Theatre, Forest Hill College, Burwood East. The Consul General of India Ms.Manika Jain was the chief guest. Appu's group started the program and they sang 4 songs. They were awarded a certificate of achievement for their excellent performance. It was given by the school as an encouragement to the students.

This is a wonderful achievement Appu – well done and congratulations! Attached are some photographs of the wonderful evening.
Curriculum Day

The Curriculum Day held on Friday 16th May was another resounding success for our school as we continued to work with renowned Literacy consultant Steve Willy on redeveloping our whole school approach to Writing. As mentioned in the last newsletter, Steve was instrumental in assisting us in developing our school’s Reading program which has been an enormous success. On the day we revised the 6+ Traits of Writing and then decided to use the acronym VOICES to represent them. Naturally the acronym will form the heading for our Writing program just as CAFÉ does for our Reading program. The acronym can best be described in the following table:

<table>
<thead>
<tr>
<th>6+1 Traits of Writing</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Voice</strong></td>
</tr>
<tr>
<td>My writing has a personal tone</td>
</tr>
</tbody>
</table>

- **Personification**: Strong intro, hook or lead
- **Hyperbole**: Pre-plan for pacing
- **Thought shots**: Sequencing details
- **Snapshots**: Satisfying title
- **Dialogue**: Transitions
- **Imitating real-world voice**: Paragraphing
- **Write from a different perspective**: Indentation
- **Convey emotion or passion**: Satisfying conclusion
- **Set mood or tone**: 5 paragraph essay
- **Persuade audience**: Sensory details
- **Punctuating Dialogue**: “To” “Two” “Too” “Their” “They’re” “There” “Their” “They’re” “There”
- **Understand pronouns**: Inventing words
- **Idioms**: Edit with Red for punctuation
- **Idioms**: Palindromes
- **Inventing words**: Edit with Blue for spelling
- **Idioms**: Palindromes
- **Edit with Yellow for capitalization**: Edit with Yellow for capitalization
More visitors to our school
For those who may not be aware, our school is considered a showcase school by the Department hence we are often asked to host various visitors. Last week we had a Principal from one of the schools in Oakleigh visit us as his school is about to embark on the process of reviewing their reading program, this week (on Tuesday) we had four Principals and two Senior Advisors (Area Managers) from schools in Wadonga and Wangaratta in our school as they were interested in seeing how we differentiate our lessons and teaching and learning programs.

On Wednesday 11th June we have the pleasure of hosting a Principal from India. Rashmi Mishri and ten other Indian principals are visiting Australia as part of an India/Australia school leadership exchange program. Rashmi is the Principal of a very large school (approximately 3,000 students) and is very keen to see how we use technology in our school.

Naturally we should all be very proud and honoured to be considered a school that has the ability to demonstrate high level of collegiate learning and it is my hope that we can also develop links with the various schools in order for the students to assist one another with their learning.

Enrolments
I would like to remind families with children who will be beginning school in 2015 that we are taking enrolments now and that they are also closing rapidly with only a very small number of positions available as places are filling fast. Hence I strongly encourage you to ensure you return your child’s enrolment form to Jenny or Pam as soon as possible.

We also ask that members of our school community assist us by informing any of their neighbours of the enrolment procedures and direct them to the office to collect an enrolment form or our school website – www.glenps.vic.edu.au. School tours are available every Tuesday morning commencing at 9:30 and also upon request. Please call the school on 9802 9938 to book a tour.

CONGRATULATIONS TO THE FOLLOWING STUDENTS WHO RECEIVED A PRINCIPAL’S AWARD RECENTLY:

Prep CB: Cheniru for being very brave, Jordan, Malaky, Dennika, Vyshi, Aeryn, Dulcie and Elizabeth for fabulous writing about science day
PRINCIPAL’S REPORT (Cont’d)

PRINCIPAL’S AWARDS (Cont’d)

Prep LT: Shreya also for being very brave
Prep MT: Suprit and Noah for outstanding Maths work,
Vineeth, Keen and Peta-Grace for being a wonderful friends

1MB: Buwanaji for being very brave and Sayuri for being a
wonderful friend, Sayuri (again), Resheen and Buwanaji
(again) for singing a song to their class and Sayuni for making
wonderful choices

2PS: Esther for making Mr Catalano a wonderful loom band,
Karina for being a wonderful friend, Harani and Akshala for
fabulous work that depicted how water gets from the sky to our
taps
2ND: Ally, Anujana and Radith for excellent English work on
"trading words" which are also featured in the Kids’ Corner
section of our newsletter, Radith (again) for being an excellent
helper, Sandhi for receiving the Terrific Kids award for Term
One (unfortunately she was overseas and we haven’t been able to
take a photograph of Sandhi with her trophy until now), Bilaal
for wonderful “veracious reading” and Yenula for being a very
responsible member of our school community

3DJ: Jay for making wonderful progress with his English skills
3KC: Umaiza for completing a fabulous front cover for her
writers notebook and Dini for being a great friend

4MK: Uvindee, Sonal, Shardul and Rahal for making a very
clever tower using MAB blocks in Maths. The tower was 40
“floors” tall and 25 cm in height
4SD: Deni, Tharushi and Aksaya for being very responsible
and mature members of our school community.

56L: Kyrylo for being a very responsible member of our school
community, Cheyenne for being an amazing school helper and
Sam and Deetya for creating a wonderful Science projects
5JT: Vehan for being a very responsible member of our school
community
5PA: Hari for a wonderful and very creative recording of his
rocket project
5SR: Kelvin also for being a very responsible member of our
school community

6SY: Kin, Joseph and Robin for being amazing school helpers
BIRTHDAYS

Happy Birthday to the following students who celebrated their special day during the first half of June:

Prep CB: Kusal
Prep LT: Ramika and Kevin
Prep OA: Sahil
Prep MT: Keen and Mansi
1MB: Aahana
1SR: Sanulya and Ryan
2PS: Chathu and Vani
3DJ: Dinuli, Lily and Kashish
34S: Sithmi, Abi, Pranav and Matthew
4KB: Roy, Gina and Sajeev
56L: Krittika
6CG: Seniya
6LT: Samarth
6SY: Olivia Y

Wishing everyone a safe and happy fortnight,

Frank Catalano
Principal

KIDS CORNER

The Kids Corner section of this fortnight’s newsletter has been written by Anujana, Ally and Radith in Year 2. This fortnight they are sharing the reading strategy “Trade a Word”. The concept behind this learning task is for the children to expand their word knowledge by substituting a word found in the book they are reading with other words from the dictionary, thesaurus and from other sources which has the same meaning!

<table>
<thead>
<tr>
<th>Words in the book</th>
<th>Words we traded</th>
<th>Words in the book</th>
<th>Words we traded</th>

Last Thursday May 22nd, our school held a “Science Open Day/Night” providing our students with the wonderful opportunity to showcase their scientific talents to our school community. The entire day and evening was a huge success. The amount of pride, knowledge and insightful learning which the students displayed was nothing short of outstanding!

This day was a clear indication that as a school community we are working together to promote academic achievement across the curriculum and to provide each and every student with the opportunity to achieve success. As parents and families you play a vital role in setting your students up for success.

As parents we are often looking for tips and ideas of how to further promote academic, social and emotional growth in our children. Sometimes it can be hard to know where to go for help that is realistic and manageable with our often busy daily schedules.

To provide parents with some direction, the Department of Education and Early Childhood Development have produced a brilliant resource titled “201 Literacy and Maths Tips to Help Your Child”. This publication is tailored to each year level, from Prep - Year 6 and has many practical tips and ideas that promote rich and meaningful learning. To assist families the publication has been published in a number of languages.

The publication identifies that “Families are the first and most enduring influence on a child’s development and play an important role in a child’s learning. Developing strong skills in reading, writing and maths is critical to ensure your child’s success in early learning and beyond. You can make a difference by supporting what your child learns at school and helping them to learn at home.”

The 201 Literacy and Maths Tips to Help Your Child booklet provides handy hints and ways you can help your child develop literacy and maths skills. It provides practical activities for you do with your child at home and questions you can ask your child to help them learn.

I strongly recommend that when looking for ideas you visit the resource on the link below: http://www.education.vic.gov.au/school/parents/involve/Pages/literacynum.aspx
Curriculum Corner

Education Week

What an amazing week it turned out to be. The Curriculum committee would like to thank everyone for their participation in Education Week, we are absolutely delighted with the number of parents, grandparents and friends that found the time to visit school during Assembly, The Science Fair, the Fun Run or Sports Fun Day, the BBQ, or Open Night. We also want to thank the families who cheered on our Choirs at The Glen Shopping Centre.

The standard of Science Projects displayed last Thursday, was a credit to your children. Personally, I found the most impressive component was that each and every student could speak with confidence and knowledge about their learning and the process followed to achieve their outcome. I have written previously in this article about the importance of differentiation, and I am sure you will agree that there was a vast range of learning outcomes celebrated last week. One of my favourite quotes is by Albert Einstein “Everybody is a genius, but if you judge a fish by its ability to climb a tree, it will live its whole life believing that it is not so clever.”

We had a large group of students out of the school last Tuesday as the Years 5 and 6 students visited Wesley College to see the dress rehearsal for their middle school play “Wind In The Willows”. I wanted to thank the college for their invitation, and as always we were extremely proud of the students’ conduct and manners. Facilitating these types of experiences help us to prepare students very gradually for Secondary School, and all form part of Curriculum, developing student awareness of themselves as part of our wider community. We could not have done without the support of some parents who also came along, for which we thank them sincerely.

I attended a workshop hosted by GTAV (Geography Teachers’ Association Victoria) and HTAV (History Teachers’ Association Victoria) last Monday as our school is a member of both of these organisations. Hearing developments in these Curriculum areas “Hot off the press” is vital to ensuring we are always at the forefront of Curriculum development in Australia. I also had the pleasure of meeting author Nadia Wheatley who wrote “My Place” and a number of other quality children’s books. I was interested that she echoes our belief in the importance of “belonging to country”, and I proudly share with you this image created during Cultural Diversity Week here at Glen Waverley Primary School. You will recall that this photo was taken on Monday 17th March, after assembly to celebrate our very special school community, so please enjoy.

Mrs Lisa Gough
Leading Teacher - Curriculum
The Water Cycle by 1SR

As part of our learning about water we have been investigating the water cycle. Look at our amazing projects!

We learnt many scientific words such as evaporation, condensation and precipitation! When we presented our learning we couldn’t read the information we had to know it and share it.
Hands On Science Incursion
OMT

This Term OMT is learning about ‘Weather’ and as part of our unit we had the wonderful opportunity to have an incursion. The incursion was very interesting because the science teachers taught us lots. We learnt about how wind and rain are made, how salt water evaporates, how the Earth’s movement affects the weather and so much more. Our wonderful science teachers even let us be scientists and we got to do cool experiments. It was lots of FUN!!!

Written by OMT and Mrs. Tzialis
We are having FUN in PMP......

As part of our Health and Physical Education Program the Foundation Students have commenced the PMP (Perceptual Motor Program) this term. Each Wednesday morning the children are given experiences in seeing, hearing, touching, processing, making perceptual judgments and reacting through carefully sequenced activities. These include running, hopping, skipping, jumping, balancing, crawling, climbing, throwing, catching, bowling and sliding, whilst using a variety of physical apparatus. Here are some photos of the children enjoying PMP.

Michelle Tzialis and Jackie Gilbert
PMP Coordinators
What a wonderful day the Prep–2 Fitness Challenge and Year 3-6 Fun Run turned out to be. The Year 3-6 students had their event first, as they made the short walk down to Larpent Reserve. We were again very lucky to have the sun shining and perfect running conditions. The 8-10 years olds started first by attempting to complete a 1km run (2 laps). Next it was the 11 year old students who attempted a 1.5km run, and finally the 12 year old students completed a 2km run. Given that most students had completed an 800m run at the Athletics Day plus the additional practice they had received during their PE lessons, most students were able to complete the course without slowing to a walk which was very pleasing. The top ten finishers in each race have now moved on to represent our school at the Syndal District Cross Country event at Jells Park on Friday 30th May – we wish them all the best.

After recess, it was the turn of the Prep to Grade two students to participate in their special fitness challenge on the school oval. Each student was placed into their grade and house group before participating in six different sporting and fitness activities including a controlled and paced jog around the oval. There were plenty of smiles, a little bit of sweat and a whole lot of determination shown. Our big day then concluded with the Community Relations team running a huge BBQ where all students came together to enjoy lunch on the oval. Although the day’s events took the students away from their usual classroom routine, we certainly feel that the day and the focus on participation, persistence, teamwork and trying your best in a sporting environment was more than worthwhile. My sincere gratitude goes out to the Community Relations team for all of their organisation and hard work with running the BBQ. I’m now looking forward to a possible Teachers v Students Soccer match towards the end of term to celebrate the beginning of the Soccer World Cup.
During this year’s Book Fair we had a lot of families through to look at and purchase some wonderful books for all ages as well as some novelty items. There was a lot of excitement from the students.

As usual there were some very popular books, two of which were Minecraft and Spirit Animals. This year we sold $2050.30 worth of items.

I would like to thank Joseph from 6SY for his wonderful work throughout the week, also his family for bringing him in early and picking him up later to enable him to assist with the fair. I would also like to thank everyone else for helping us to celebrate Education Week by supporting the Book Fair.

I would also like to thank our colouring competition winners:

Esther 2PS
Lauren 4MK
Ching 34S
Suhani 1SR

Don’t go a day without your Entertainment™ Membership...

The current 2013 | 2014 Entertainment™ Books expire on June 1st 2014, but the good news is the new Memberships are here.

Choose between the Entertainment™ Book or the Entertainment™ Digital Membership for your smartphone! (See reverse)

Receive up to 50% off and 2-for-1 offers, valid from now until June 1st, 2015

To pay securely online or order your Digital Membership visit:

Contact: Kylie Bailey  Phone: 98029938

Thank you for supporting Glen Waverley Primary School. 20% of each Membership sold contributes to our School.

Choose the Entertainment™ Membership that suits you!

1. The Entertainment™ Book Membership
The Entertainment™ Book is a local restaurant and activity guide which provides hundreds of up to 50% off and 2-for-1 offers for the finest restaurants, cafés, attractions, activities, retailers and hotel accommodation. The Book gives you exclusive offers that are virtually restriction free, literally pages and pages of offers to enjoy all year long.

2. The new Entertainment™ Digital Membership
The brand new Entertainment™ Digital Membership puts the value of the Entertainment™ Book into your Apple or Android smartphone. With ‘near me’ technology and the ability to show and save using your phone, this is perfect for the person on-the-go, with no Card or Voucher to present. Digital Membership is only available when purchased online.

Bushland Walk in Valley Reserve

Friday 6 June
10.00am – 11.30am
Valley Reserve, Mt Waverley

Join our local bushlands expert Chris Gittins, from Council’s Horticulture unit, on a tour of Valley Reserve. Enjoy a stroll around the beautiful Valley Reserve as Chris highlights local indigenous flora and fauna.

Meet at the main carpark off Willis Ave, Mt Waverley.

Wear sturdy outdoor footwear and bring a coat and hat. Not suitable for wheelchairs or people with moderate walking terrain.

The tour will go ahead even with light rain. Please ring council in the morning if the weather looks inclement.

Follow Your Recyclables Tour

Tuesday 3 June
9.30am – 2.00pm

Learn about the recovery and recycling sorting processes that your kerbside recyclables go through before they are made into new products. The tour will conclude with a visit to the Clayton landfill to see where your household rubbish ends up.

Meet at Central Reserve for bus departure. Please use the carpark off Springvale Road. Light lunch provided.

RSVP essential as places are limited.

Natasha Primo, Viscy 8316 9227
email: natasha.primo@viscy.com.au

Sustainable Living Workshops
June 2014

Join us as we celebrate World Environment Day with five free sustainability workshops

Make a booking at:
environmentalmanagement@monash.vic.gov.au

Declutter your Home

Thursday 5 June
6.30pm – 8.00pm
Essex Heights Juniors Early Learning Centre
102 Hummingdale Rd, Mt Waverley

Come along to a fun, interactive workshop and learn how to declutter and organise every room in your house with eco-organiser Tanja Lewis.

Discover how to reduce, reuse, and recycle for a simpler life. You will leave with a better understanding of what your clutter is, and how to responsibly dispose of unwanted stuff.

Lights out for the Reef
An ‘Earth Hour’ documentary

Thursday 5 June
12.00pm – 1.00pm
City of Monash, Civic Centre Function Room
259 Springvale Rd, Glen Waverley

Enjoy some fresh popcorn while you watch ‘Lights Out for the Reef’ - a 20 minute positive, entertaining and emotive travel-based documentary that highlights how climate change is affecting our treasured Great Barrier Reef.

Find out why stronger action is needed to cut carbon pollution and speak with representatives from the Eastern Alliance for Greenhouse Action (EAGA).

Mend it

Saturday 21 June
11.00am – 3.00pm
Mulgrave Neighbourhood House
36-42 Mackie Road, Mulgrave 3170

Do you have a pile of clothes waiting to be mended? Maybe you need to patch jeans, repair a tear, replace buttons or make a simple alteration? Or maybe you want to give a garment a new look and a new lease of life.

Bring along your garment to our workshop, where we will have everything you need to mend or alter it, as well as someone to guide you as you sew.
