Year 5 Syndal District School Sports Association Fees

Dear Parents/Guardians,

A significant component of our school’s Physical Education program is working with the Syndal District School Sports Association (SDSSA) to offer opportunities for students to further their sporting experiences. The SDSSA plans and coordinates significant annual events like the District Athletic, Swimming and Cross-Country days. The SDSSA also runs the interschool sports competition and round robin days, as well as holding trials for individual sports as a stepping stone towards potentially representing our state. Many of the events require the need to hire a venue, to purchase specialised equipment and/or to pay independent referees to officiate competition. Each school within the District is charged a set fee for their Year 5 and Year 6 students which contribute towards covering the costs of running these events.

Our school endeavors to keep the PE and sport costs for families to a minimum, however we do ask that families of Year 5 students help to contribute towards the cost of our Syndal District School Sports Association fees. The contribution rate is $6 per student. We ask that you please return the payment slip below along with the $6 by Friday 20th February.

We thank you kindly for your understanding and support of our school sports program. If you have any questions about these fees or about any component of our Physical Education program, please feel free to see me or contact me at the school.

Yours sincerely,

Shae Warren
School PE & Sport Teaching and Learning Leader.
